Futures Explored Presents:

A Full Life

Lifespan Planning & Family Support

** Planning the Future for Our Family Member with a Developmental Disability **

POS Information Sheet

Accessing a Regional Center Purchase of Service for the Life Planning Program

It is necessary for the family to contact the Regional Center case manager and request an IPP Addendum stating that the Regional Center authorizes the family's participation in the Life Planning Program. Inform the case manager that it is important that a life plan for your relative be in place that will inform the Regional Center of your and your relative's wishes when you are no longer here. The case manager will have a copy of the Life Plan in your relative's file, which will be updated once a year. The Regional Center has vendorized this program and will issue a POS in order for you and your relative with a disability to complete a Letter of Intent and develop a Support Network.

- POS authorization is to be written for 39 hours over a 12-month period.
- Vendor #: PBI052 / Service Code: 102
- For the addendum, it is recommended that language similar to the following be used (per RCEB management staff):

Objective: "Joe and his family will develop a Life Plan to document how supports will be provided in the future."

Plan: "Joe and his family require assistance to develop a Life Plan to assure that desired supports and services are available when the family is no longer able to provide the current level of support."

"RCEB will fund the Futures Explored Life Planning Program for 39 hours one time for the period from ___ to ___ (a 12 month period)."

For more information, please call Futures Explored @ 925-284-3240 x212.

Thank You!!
